

Marine Engineering Apprenticeship

Get hands-on skills and gain a valuable qualification in a key marine trade.

Earn While You Learn

Why Become an Apprentice with Cornwall Marine Network?

- Earn a salary
- Receive training, advice and guidance from our specialist training team
- Become a valued member of the team through your work experience with a business
- Gain recognised qualifications to enhance your knowledge and kick-start your career

How does an Apprenticeship Work?

- 4 days a week are spent working for your employer
- Typically 1 day a week is spent training in a location close to you, however a training delivery method may be designed to suit you and your employers' needs

How do I Become an Apprentice?

- Contact CMN on: 01326 211382 or
- Email CMN on: apprenticeships@cornwallmarine.net

Cornwall Marine Network has over 300 marine member businesses. We will place you within an appropriate member business that is suitable to your chosen career path.

Level 2 will equip you with basic skills in your chosen area of Marine Engineering, the technical certificate will give you the background knowledge required to gain a sound understanding of your job role and you will be taught practical skills to enable you to carry out your job.

Level 3 will develop your skills from Level 2 over a further 2 years to become a qualified and competent Marine Engineer, Boat Builder, Shipwright or Marine Electrician. It may be possible to progress directly onto the Level 3 programme depending on your prior experience and qualifications.

What Will This Cover?

Level 2

- Gain a Level 2 Marine Engineering Apprenticeship over two years
- Achieve a Level 2 NVQ in Marine Engineering (EAL)
- Achieve a Level 2 Certificate in Boat Building, Maintenance and Support (City & Guilds)
- Achieve Key Skills in Application of Number, Communication and Information Communication Technology Level 1, Working With Others and Improve Own Learning

Level 3

- Gain a Level 3 Marine Engineering Apprenticeship over two or four years (dependent on entry requirements)
- Achieve a Level 3 NVQ in Marine Engineering (EAL)
- Achieve a Level 2 and Level 3 Certificate in Boat Building, Maintenance and Support (City & Guilds)
- Achieve Key Skills in Application of Number, Communication and Information Communication Technology Level 2, Working With Others and Improve Own Learning
